I am pleased to offer my only female from the 2018 breeding season, and Bocelli and Aurora's first daughter for purchase through the CNASF lottery.

This lovely young female displays an abundance of lustrous fleece that practically shines like gold from skin to tip. While both her sire and her dam display strong traits in uniformity, fleece length, and low micron, Borealis is really shining as an animal producing the long-stapled, bright fleece more prevalent in her paternal lines. Her first fleece averaged 7" from skin to tip, and her second fleece has already come to exceed the 3" mark with only 7 months of growth.

Genetically, Borealis' pedigree is full of some very fun names, including PC Running Late, Purrembete Ledger's Dream, Snowmass Legacy's Golden Boy, RGA Miguel, Pokemon Brew, and more distantly familiar names including Auzengate, Caligula, and Hemingway. She has a lovely presence with an upright carriage with an expressive face. I really appreciate Borealis' easy going temperament. She is no slouch and maintains robust health even in the face of stressors. She has all the basics already, halter, tie, trailer, and trim trained, in addition to reliably coming to her name when called. She is food motivated and is very clever.

More information and photos of Borealis and her fleece can be found on her page at <https://www.forgetthepaint.com/> where I am happy to answer any additional inquiries.
