We are pleased to offer LuSenza who is one of the best representations of our farm to the 2020 CNASF lottery. LuSenza's Granddam, being from the NGG Lionel heritage, was a huge influence on our breeding program producing many colour champions, all females but one. Her sire, Tiger Park Luongo (a Bolivian Ice Man son) adds a solid frame & lasting fineness. Added to these traits are some great prepotent Black genetics.

We are also very excited to include a little special something....LuSenza is bred to our recently purchased exclusive Macho "Xanadu P High Cotton" due in August 2020. What truly impressed Carol & I most about Cotton was the fact that he has produced several colour champions exhibiting uniformity of high quality fleece characteristics on a compact frame.
