A combination of a Xanadu P. Resolute daughter and Snowmass Conopa, this young girl is a cross of award winning genetics.

Sunnyhill's Conopa's Spot is a beautiful package, nice square frame, solid bone, perfect bite, outstanding conformation, all this plus a really nice fleece. Spot has good density, a very fine hand and a consistent crimp style from shoulder to hip.

She does have a spot on her tail, hence her name, other than that this is a great little female.
